To: Our Canadian Built-Up Roofing Customers / Solid and Bulk Asphalt

**Subject : 8% price increase on all our bulk and packaged roofing asphalts**

Dear Customer,

Please be advised that our roofing asphalt prices are going up 8% on October 1, 2014. All shipments on or after October 1, 2014 will be invoiced at the new prices regardless of the order date.

We will not accept any new orders for our Burpak(bags) at the current price. Our actual order book brings us already in October. Nevertheless we have the ability of accepting orders for asphalt kegs for our customers who would like to beat the price increase.

Please contact your Bitumar representative for more details.

Thank you for your support.
