*Making your job easier™*

January 2014

To our valued Customers:

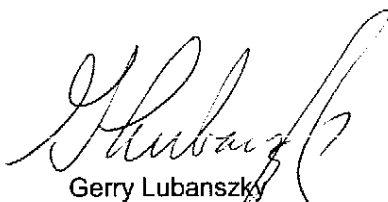

We have worked particularly hard this year to keep our winter products at the best possible prices for the past two years. Although we have been able to reduce costs and improve our efficiency at all levels, the increase of raw material costs, their purchase in US dollars and the increase in the exchange rate have made it impossible for us to maintain our prices in our 2014 Price List FL0514. Consequently, we are required to apply a 3.5% increase on all our winter products including the poly grain scoops.

In a few weeks you will receive a new price list that will come into effect on May, 1<sup>st</sup> 2014.

Garant combines the finest materials, manpower and manufacturing techniques to produce a broad line of tools of unsurpassed quality and reliability. Garant tools are made with the quality features consumers demand and are backed by warranties that ensure their complete satisfaction.

Thank you for your business and continued support.

Sincerely,

Gerry Lubanszky  
Vice President of Sales.
